

# Bunching Analysis

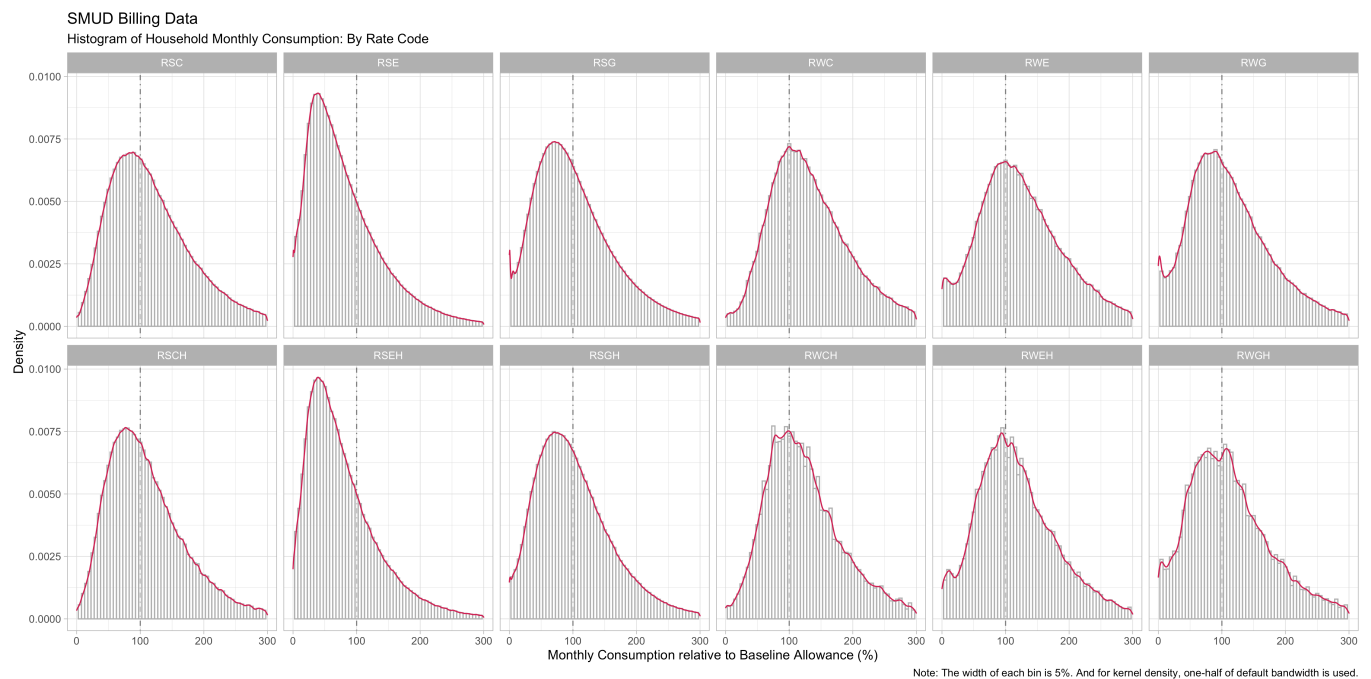

## 1. Histogram of Household Monthly Electricity Consumption: By Year

There is no evidence of bunching at the kink point, which means monthly consumption allowance, in household monthly electricity consumption.

## 2. Histogram of Household Monthly Electricity Consumption: By Rate Code

There is evidence of bunching at the kink point only for a group of residential rate schedules: RW (i.e., Residential Domestic Wells, including RWC, RWE, RWCH, RWEH, and RWGH).

### 3. Histogram of Household Monthly Electricity Consumption: By Selected Rate Code and Season

For the group of residential rate schedules, bunching exists regardless of season.
